Discover one of the most important and unrecognized women in United States history on ***America's Victoria: Remembering Victoria Woodhull***, a newly released two-DVD set with additional commentary.

Previously featured on PBS, *America's Victoria* is an exciting chronicle of Victoria Woodhull, a radical suffragist and "free love" advocate who became the first woman to campaign for the presidency in 1872. This exclusive director's edition DVD combines rare archival images, Woodhull's own words performed by actress Kate Capshaw, and illuminating interviews with historians, such as contemporary feminist Gloria Steinem, to present a fascinating portrait of a remarkably brave individual. ***The Closer*, the #1 series in cable history, returns to TNT for a must-see two-hour holiday event on Monday, December 3 at 8/7c.**

The intense, critically acclaimed, original drama stars Golden Globe® winner Kyra Sedgwick as Deputy Chief Brenda Johnson, a strong, confident LAPD interrogator, lacking a few social graces, whose unusual interrogation tactics solve high-profile murder cases. And don't miss an all-new episode of *Saving Grace*, starring Academy Award® winner Holly Hunter, immediately following *The Closer*. To learn more, check out www.tnt.tv.
